

BIO-UV

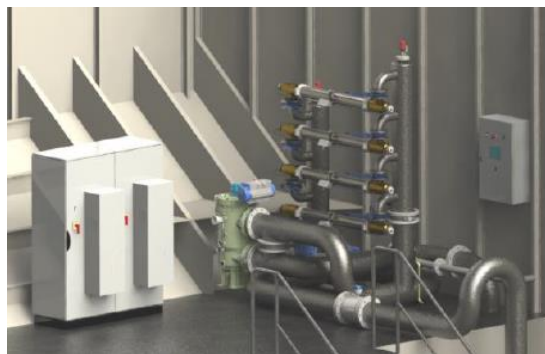

Terasaki Electric Co.,(F.E.) Pte Ltd is pleased to be the Exclusive Distributor with BIO-UV Group for BIO-SEA BALLAST WATER TREATMENT SYSTEM.

BIO-UV, founded in May 2000 and based in Southern France, specializes in UV-C light for water treatment, designs, manufactures, and offers worldwide UV solutions for water disinfection.

More than 50 000 BIO-UV water treatment systems are installed all over the world.

BIO-UV managers' and engineers' experience in water treatment has enabled BIO-UV to be one of the world leaders in UV-C technologies, providing safe and efficient solutions to ensure proper water quality. For Ballast Water Treatment Application, BIO-UV designed BIO-SEA, a range of complete systems that combine mechanical filtration and UV water treatment in accordance with the G8 IMO Guidelines.

BIO-UV is certified ISO 9001 as well as obtaining certifications from NSF, ONORM, and the French Health Ministry.
