

PSM Instrumentation Limited

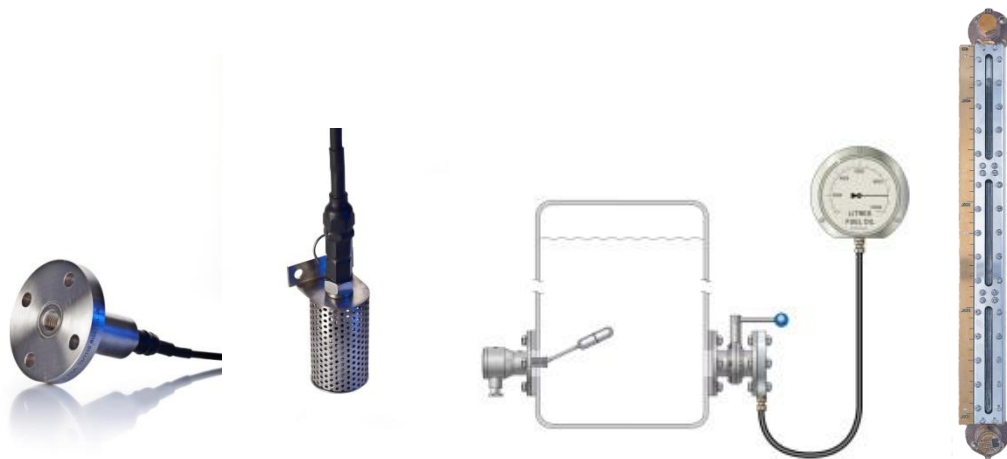

Terasaki Electric Co.,(F.E.) Pte Ltd is pleased to be the Exclusive Distributor with PSM Instrumentation Limited for Marine Tank Liquid Level And Pressure Measurement.

Established for over thirty years, PSM Instrumentation, based in the UK, is a specialist in the design, manufacture and supply of marine control instrumentation and marine protection systems for the marine transportation industry.

PSM's accurate, robust and reliable tank gauging instruments and systems have been designed and constructed to meet all your requirements, whatever the type and size of your vessel or the nature of your measurement application.

From a single switch to complete systems, our type approved and quality certified range of transmitters, gauges and switches are compatible with fuel oil, lubricants, hydraulic fluid and bilge or ballast water.

They have been globally proven in all types and classes of commercial and military vessels and will withstand the harshest of marine environments.
